Economic Development Vision and Mission Statements

As jointly adopted by the
Ferris 4A Economic Development Corporation
And the
Ferris 4B Economic Development Corporation
On September 13, 2012

VISION

Preserving the historic downtown area, Ferris will be a sound economic competitor, providing opportunities for new commercial, industrial, and residential development which does not appreciably alter the historic nature of the community.

MISSION

To promote economic development in the City of Ferris through the attraction of new high wage business and industry and the retention of existing businesses and industries. This will be accomplished by providing the resources that enable development and presenting the City of Ferris as the preferred industrial, commercial, and residential choice.
